POLICE DEPARTMENT
Chief Fisher had nothing to report. Mr. Buck stated that he was disappointed that the Veteran’s Day parade was canceled due to weather but was looking forward to Chief Fisher being the parade grand marshal next year.

FIRE DEPARTMENT
Mr. Jay Somerville, Director of NRECC, thanked the Board for their trust and partnership over the last three years. Mr. Somerville reported that the City of Worthington is to become the fourth agency to join NRECC. In order to ensure a stable transition without impact to service levels for current partners, the Worthington Fire Department is planned to go live in July 2020. Then the Worthington Police Department will go live the day after Labor Day 2020. Mr. Somerville recapped the need to re-align supervisory positions within the unit which includes adding four positions. He noted that Worthington paid out right for two of these positions. The cost of the other two positions will be spread across all partners. Mr. Earman confirmed that currently there are eight positions of which seven are staffed. Mr. Somerville confirmed this and stated that after adding the new positions, there would be twelve work stations with nine to ten staffed. Mr. Buck thought that taking on new agencies would reduce our costs which is not the case. Also, given the 4 percent increase, the cost of living is not 4 percent, so Mr. Buck is very disappointed. Mr. Somerville noted that this is an unusual
year given the increase, however, over the life of the contract the increase average is 2.25 percent per year. The Board thanked Mr. Somerville for attending the meeting and moved forward with approval of the 2020 contract.

Approval of 2020 Dispatching Costs Outlined in Exhibit A
Motion by Mr. Roberts, seconded by Mr. Earman, for approval of the updated costs outlined in Exhibit A totaling $411,589 for contracted dispatching services with the City of Dublin NRECC for 2020.

Chief Warren recapped the revisions to the fire department storage building project. The revisions included reducing from seven bays to five bays and eliminating the parking lot project to the east. The engineer’s have confirmed that proceeding with concrete instead of blacktop is the better option. Mr. Roberts asked if there were other changes. Chief Warren said that the engineer’s looked at the curb cut but there would be no changes. Mr. Roberts recommends removing the restroom for further cost reduction. Mr. Earman suggested moving forward with the previous changes and see where the bid costs come in at.

TRUSTEE-NEW BUSINESS
